INDEX

Absorption of water by gelatin (Jordan-Lloyd) 1580; (Pleass) 1943
Accessory factor necessary for growth of *Nematospora gossypii* (Buston and Pramanik) 1656, 1671
Acid-denaturation of haemoglobin (Meldrum) 1498
Acidosis, chlorides and inorganic constituents of serum and cerebrospinal fluid in (Linder and Carmichael) 1090
Adrenaline, effect of, on glycogen distribution in the rat (Lawrence and McCance) 570
Ågren, G., Wilander, O. and Jorpes, E. Cyclic changes in the glycogen content of the liver and the muscles of rats and mice. Their bearing upon the sensitivity of the animals to insulin, and their influence on the urinary output of nitrogen 777
Ahmad, B. The fate of carotene after absorption in the animal organism 1195
Aitken, H. A. A. A further note on the determination of iodine in blood 446
Alcock, R. S., *see* Cook, R. P.
Alcohols, secondary, paraffins and ketones, synthesis and crystal spacings of long-chain (Piper, Chibnall, Hopkins, Pollard, Smith and Williams) 2072
Algae, marine, occurrence of sugar alcohols (dulcitol) in (Haas and Hill) 1470
Allchorne, E., *see* Bacharach, A. L.
Allen, L. A. Observations on some alcohol-soluble proteins from milk products 1045
Aluminium, assimilation of, by the human system (Lewis) 2162
Aluminium, excretion and absorption of, in the rat (Mackenzie) 287
Aluminium in aluminium protein compounds, a method for determining (Pope) 1949
Amino-acids, basic, of wool (Stewart and Rimington) 2189
Amino-acids, Erlenmeyer synthesis of (Lamb and Robson) 1231
Ammonia, oxidation of, in percolating filters (Jenkins) 147
Ampholytes, effect of addition of salts on p_H of solutions of (Giedroyé and Przyłęcki) 465
Amylase and lactic acid formation in muscle, relation between (Case) 561
Amylase-starch-gelatin system (Freiberger) 705
Amylase-starch-protein systems, action of salts on (Chrempińska) 1555
Anslow, W. K. and Raistrick, H. Studies in the biochemistry of micro-organisms. XIX. 6-Hydroxy-2-methylbenzoic acid, a product of the metabolism of glucose by *Penicillium griseo-fulvum* Dierckx 39
Anthocyanin of *Oxycoccus macrocarpus* Pers. (Grove and Robinson) 1706
Anthocyanins, survey of (Robinson and Robinson) 1687
Antiglyoxalase (Giršavičius) 1807
Antimony trichloride test of liver oils (Gillam and Morton) 1346
Antiscorbutic factor, reprecipitation of (Zilva) 594
Antiscorbutic potency of apples (Bracewell, Kidd, West and Zilva) 138; (Bracewell, Wallace and Zilva) 144
Apple cuticle, wax constituents of (Chibnall, Piper, Pollard, Smith and Williams) 2095
Apple, determination of reducing sugars in, iodimetrically (Archbold and Widdowson) 101
Apples, antiscorbutic potency of (Bracewell, Kidd, West and Zilva) 138; (Bracewell, Wallace and Zilva) 144
Archbold, H. K. and Widdowson, E. M. Iodimetric determination of reducing sugars in the apple 101
Arginine, effect of, on body weight of tumour-bearing mice injected with thyroxine (Gilroy) 414
Arsenate, effect of, on the induction period of zymin (Macfarlane) 822
Ashford, C. A. and Holmes, E. G. Further observations on the oxidation of lactic acid by brain tissue 2028
Aspergillus, production of mannitol from hexoses and pentoses by white species of (Coyne and Raistrick) 1513
Auchinachie, D. W., *see* McGowan, J. P.
Auden, H. A. and Dawson, E. R. The hydrolysis of concentrated sugar solutions by invertase 1909
Autolysis in malignant and normal rabbit tissues (Price) 1491
Avitaminosis B, intoxication by methylglyoxal in (Vogt-Møller) 418

Bacharach, A. L., Allchorne, E. and Hazley, V. The effect of adding vitamin A to a rachitogenic diet 639
B. coli cultures, effect of bacteriophage on oxidation-reduction potentials of (Hewitt) 1641
B. coli, effect of hydrogen ion concentration on oxidations by (Cook and Alcock) 523
B. coli, reduction of nitrates by (Stickland) 1543
B. coli, respiration of (Cook and Haldane) 880
B. coli, respiratory catalysts of, relationship between (Cook, Haldane and Mapson) 534
B. dysenteriae cultures, effect of bacteriophage on oxidation-reduction potentials of (Hewitt) 1447
B. pyocyaneus, action of, on citric acid (Walker, Subramaniam, Stent and Butterworth) 129
Bacteria, liberation of elementary nitrogen by (Barritt) 1965
Bacteria, "resting" (Sandiford and Wooldridge) 2172

Bacteria, types of products formed from glucose by (Birkinshaw, Charles and Clutterbuck) 1522
Bacterial proteases, formation of, in synthetic media (Haines) 1851
Bacteriophage, effect of, on oxidation-reduction potentials of *B. coli communis* cultures (Hewitt) 1641
Bacteriophage, effect of, on oxidation-reduction potentials of *B. dysenteriae* (Shiga) cultures (Hewitt) 1447
Bacteriophage, effect of, on oxidation-reduction potentials of *Staphylococcus* cultures (Hewitt) 2068
Banks, A. and Hilditch, T. P. The glyceride structure of beef tallows 1168
Barger, G. and Weichselbaum, T. E. A new synthesis of methionine 997
Barium, micro-determination of (McLaughlin) 307
Barritt, J. and King, A. T. Note on the sulphur-free nature of medulla in blackface wool 1075
Barritt, J. and Rimington, C. The relation between total sulphur and cystine content of certain samples of rabbit fur 1072
Barritt, N. W. The biological filtration of dilute sucrose solutions 1419
Barritt, N. W. The liberation of elementary nitrogen by bacteria 1965
Barton-Wright, E. C. and Boswell, J. G. The biochemistry of dry-rot in wood. II. An investigation of the products of decay of spruce wood rotted by *Merulius lachrymans* 494
Basic amino-acids of wool (Stewart and Rimington) 2189
Bekker, J. G. and King, A. T. Sulphur distribution in the component structures of wool and porcupine quills 1077
Bell, M. E. The blood-sugar level in vitamin B_1 deficiency 1755
Beriberi, experimental, glyoxalase-co-enzyme ratio in (Vogt-Møller) 418
Bhattacharya, B. and Hilditch, T. P. The body fats of the pig. I. Influence of ingested fat on the component fatty acids 1954
Biological values of proteins of various breads (Kon and Markuze) 1476
"Bios," relation of accessory factor for growth of *Nematospora gossypii* to (Buston and Pramanik) 1671
Birch, T. W. and Guha, B. C. The chemical nature of vitamin B_1 from evidence afforded by its electrical transference 1391
Bird, G. M. and Haas, P. On the nature of the cell wall constituents of *Laminaria* spp. Mannuronic acid 403
Birkinshaw, J. H., Callow, R. K. and Fischmann, C. F. Studies in the biochemistry of micro-organisms. XXII. The isolation and characterisation of ergosterol from *Penicillium puberulum* Bainier, grown on a synthetic medium with glucose as sole source of carbon 1977
Birkinshaw, J. H., Charles, J. H. V. and Clutterbuck, P. W. Studies in the biochemistry of micro-organisms. XXI. Quantitative examination by the carbon balance sheet method of the types of products formed from glucose by species of bacteria 1522
Bladder, urinary, phosphatase activity of transplants of (Huggins) 728
Blissett, A. H. and Golding, J. On the inadequacy of white wheat flour and fish meal for prolonged growth of pigs and its amelioration with yeast or stout 349
Blood-calcium following intravenous injection of calcium salts (Greville) 1931
Blood corpuscles, red, quantity of free water in (Schiødt) 8
Blood, determination of inorganic sulphate in (Cuthbertson and Tompsett) 1237
Blood, determination of iodine in (Aitken) 446
Blood, ergothioneine content of (Salt) 1712
Blood, factors influencing complement in (Osborn) 2136
Blood-fat, determination of (Himwich, Friedman and Spiers) 1839
Blood glycolysis (Reid and Narayana) 339
Blood-phosphatases (Roche) 1724
Blood-phosphorus in fat absorption (Vahlquist) 1628
Blood-plasma, human, determination of inorganic sulphate in (Cope) 1183
Blood-sugar, determination of, by the Hagedorn-Jensen method (Kramer and Steiner) 161
Blood-sugar in vitamin B_1 deficiency (Bell) 1755
Blow-fly larvae, collagenase from (Hobson) 1458
Boas-Fixsen, M. A. The effect of desiccation upon the nutritive properties of egg-white. II 596
Booth, J., *see* Campbell, W. G.
Boswell, J. G., *see* Barton-Wright, E. C.
Boxwood, proximate analysis and nature of furfuraldehyde-yielding constituents of (Preece) 1304
Boyd, W. J. The nature of the "ether reaction" of urine 812
Bracewell, M. F., Kidd, F., West, C. and Zilva, S. S. The antiscorbutic potency of apples. II 138
Bracewell, M. F., Wallace, T. and Zilva, S. S. The antiscorbutic potency of apples. III 144
Bracewell, M. F. and Zilva, S. S. Vitamin C in the orange and the grape fruit 1081
Brain tissue, oxidation of lactic acid in (Ashford and Holmes) 2028
Briggs, G. E. The significance of the Michaelis constant for saccharase 1801
Bruins, H. R., Overhoff, J. and Wolff, L. K. The molecular weight of vitamin A 430
Buston, H. W. and Pramanik, B. N. The accessory factor necessary for the growth of *Nematospora gossypii*. I. The chemical nature of the accessory factor 1656
Buston, H. W. and Pramanik, B. N. The accessory factor necessary for the growth of *Nematospora gossypii*. II. The relation of the accessory factor to "bios" 1671
Butter-fats, glyceride structure of (Hilditch and Sleightholme) 507
Butterworth, J., *see* Walker, T. K.

Cabbages, lipoid matter extracted from (Collison and Smedley-MacLean) 606
Calcification of the bones of rats on a diet low in ergosterol (Hume and Smith) 292
Calcium, effect of, on rate of diffusion of sugars through surviving intestine (Magee and Sen) 643
Calcium metabolism of guinea-pigs in scurvy (Humphreys and Zilva) 579
Calcium-phosphate intake, influence of, on hypervitaminosis D (Harris and Innes) 367
Calcium salts, blood-calcium following intravenous injection of (Greville) 1931
Callow, R. K. The purification of ergosterol 79
Callow, R. K. Occurrence of α-dihydroergosterol as an impurity in yeast ergosterol 87
